INSTITUTE FOR ADVANCED COMPOSITES MANUFACTURING INNOVATION

MEMBERSHIP

ENGAGE in IACMI's strategic planning, roadmapping, and development of projects.

NETWORK with experts in the composites industry during semi-annual members meetings and other member events.

LEVERAGE INVESTMENTS of more than $250 million focused on accelerating the development of advanced composites.

BACKGROUND

The Institute for Advanced Composites Manufacturing Innovation, IACMI, is a partnership of industry, universities, national laboratories and federal, state and local governments that work together to benefit the nation’s energy and economic security. These partners share existing resources and co-invest to accelerate research and development innovation with advanced composites. IACMI members have the opportunity to leverage significant federal and non-federal funding to develop new low-cost, high-speed, and efficient manufacturing and recycling process technologies that promote widespread use of advanced fiber-reinforced polymer composites.

MEMBERSHIP STRUCTURE

IACMI membership is a tiered structure with a one to five-year commitment that provides a range of benefits on important issues such as strategic planning, roadmapping, and the development of projects. The membership fee structure is based on company size and ability to partner on technology development for composite materials.

CHARTER MEMBER

- Have a significant influence in the direction of IACMI.
- Seat on the Board of Directors and Representative on the Technical Advisory Board.
- Required investment of $5 million over 5 years

PREMIUM MEMBER

- Engage in enterprise-wide proprietary projects.
- Elect a representative to the Board of Directors and the Technical Advisory Board.
- Required investment of $1 million over 5 years

CONSORTIUM MEMBER

- Expand networks and build key relationships to fuel company growth within the composites ecosystem.
- One SME representative is elected to Board of Directors.
- Required investment of $5k or 10k annually

RESOURCE MEMBER

- Participate in projects to improve products and gain industry exposure. Opportunity to provide valuable resources used to accelerate composites manufacturing.

For more information and to become an IACMI member, visit www.iacmi.org/membership or contact Jarrod Blue at jblue@iacmi.org

IACMI is managed by Collaborative Composite Solutions Corporation (CCS)
